

AMAN RAJPUT

Reverse Engineering & Scan-to-CAD Engineer
Automotive | Industrial | Simulation Geometry Support

Email: amanrajput952835@gmail.com

Location: India (Remote / Contract Availability)

PROFESSIONAL SUMMARY

Reverse Engineering and Scan-to-CAD Engineer with over 2 years of hands-on industry experience supporting automotive and industrial R&D; programs. Specialized in converting 3D scan data and physical components into accurate, simulation-ready CAD models using Geomagic Design X and SolidWorks. Experienced in working within NDA-driven environments, delivering high-accuracy geometry for design validation, benchmarking, and downstream CFD/CAE workflows.

CORE TECHNICAL SKILLS

Scan-to-CAD (Geomagic Design X), Point Cloud & Mesh Processing, Solid & Surface Modeling (SolidWorks), CAD from Physical Components, Automotive Plastic Components, Assembly & Part Design, Engineering Drawings & Tolerance Support, Design for Manufacturability (DFM), Geometry Preparation for Simulation Workflows

PROFESSIONAL EXPERIENCE**Nikola Labs Pvt. Ltd., Noida (India)**

Reverse Engineering / Scan-to-CAD Engineer (2023 – Present)

- Generated accurate, production-ready CAD models from 3D scan data and physical components.
- Prepared clean, watertight geometry suitable for simulation workflows.
- Supported R&D; and benchmarking activities.
- Worked in secure, NDA-compliant environments.

Limras Plastics & Co., Noida (India)

Design Support Engineer (2021 – 2023)

- Supported plastic component design modifications.
- Assisted with CAD updates and drawings.

EDUCATION

B.Tech (Pursuing) – 2025–2026

B.Sc – 2024, CSJM University, Kanpur

TRAINING & TOOLS

AutoCAD & SolidWorks – Shape My Skills Pvt. Ltd.

Geomagic Design X (Industry Usage)

AVAILABILITY

Remote / Offshore Engineering Support | Contract-based Engagements
