M.TECH, PRODUCTION AND INDUSTRIAL ENGINEERING, IIT INDORE

EDUCATION

Indian Institute of Technology Indore, Madhya Pradesh, India
Master of Technology, Production and Industrial Engineering, *Jul' 20 - Jun' 22*
CGPA:8.32/10

Department of Mechanical Engineering, Rajasthan Technical University,
Kota, India
Bachelor of Engineering, Mechanical Engineering *Aug' 15 - May' 19*
Percentage: 66.90

Aklank Public School, Kota, Rajasthan
Primary to Senior Secondary Education *July'98 - May' 14*
Secondary(10th)- 10.0 CGPA,
Senior Secondary(12th)- 83.4 Percentage

RESEARCH INTERESTS

Functionally Graded Materials, Solid State Battery, Wire Arc Additive Manufacturing

INDUSTRY EXPERIENCE

Central Western Indian Railways, Kota, India
Industrial Training for Graduation *May '18 - July '18*
-As a Trainee, I went through all the maintenance process of railway wagon and study the use of different types of wagon and how the fault can be analyze.

MASTER'S THESIS/ RESEARCH PROJECT

Inconel 625 and Stainless Steel 316L dual wire arc additive manufacturing of functionally graded material
Supervisor : Dr. Yuvraj K Madhukar
Department of Mechanical Engineering, IIT Indore *Aug '21 - Jun '22(Exp.)*
-Fabrication of functionally graded materials taking SS316L and IN625 as two wire being fed simultaneously via GTAW. Sandwich like and Incremental gradient structures deposited. Furthermore the study of its micro-structure and hardness across the length of the fabricated sample.

BACHELOR'S PROJECT AND RESEARCH SEMINAR

Modification of Equipment's in Morse Test
Supervisor : Dr. Sanjeev Mishra
Department of Mechanical Engineering, RTU Kota *Jan'19 - Jun'19*
-Modification of an old engine is made to make it compatible for morse test(Required 4stroke-4cylinder engine) and also the dynamometer for measuring the torque and rotational speed simultaneously. Thus performed the morse test with less than 5 percent error.

Recent Advances of Solid State Electrolytes in Lithium Ion Batteries
Supervisor : Dr. Sanjeev Mishra
Department of Mechanical Engineering, RTU Kota *Jan'19 - Jun'19*
-A review on the recent advancement in new generation of batteries(i.e Solid state batteries) using solid electrolytes.

COURSE PROJECTS	Seat Light weighting Project <i>Course : Quality Assurance in Metallurgy (MM 642)</i> <i>Supervisor : Dr. Hemant Borkar, Metallurgy Engineering Dept., IIT Indore</i> <i>Team Size : 4</i><i>Dec '20 - Mar '20</i> - Studied the car seat materials and how to reduce the weight . - Presented a detailed analysis on the proposed lightweighting of the seat .
-----------------	--

SKILLS	Programming Languages: MATLAB Analytical Skills: MS-Excel (Office) Simulation Softwares: Simufact, ANSYS Designing Softwares: Solidworks, Auto-Cad, MSC-Apex, CATIA
--------	--

CERTIFICATIONS	- Attend a week long course of NDT(Radioactive). - 3D printing Workshop (US Institute of 3D Technology). - Advance Industrial Automation Training for Engineering Education and Research (Online Mode), IIIT Tiruchirappalli and INDWELL Automation,Mangalore.
----------------	--

EDUCATIONAL EXPERIENCE	- Mentored and Collaborate with Undergraduates at IIT Indore'22 in their BTP. - Collaborate with the PhD at their project. - Conducted experiment for the Department of Science and Technology at IIT Indore Laser Material Processing Lab. - Works as Teaching Assistant in the Engineering Design at IIT Indore'22.
------------------------	---

AWARDS & ACHIEVEMENTS	- Secured 97.03 percentile in GATE 2020. - Awarded the Sportsmen of the Year'14 at Aklank Public School - Achieved 8th rank at Rajasthan Table Tennis Championship'11 in Under14 - Gold medalist at Table Tennis in Intra IIT Indore'22(LAKSHYA Sports Fest)
