

DEEPAKRAJ G

No.06, 12th street, thiruvalluvar nagar, TM Voyal, Chennai-62 | +91 9600079951 | deepak2610g@gmail.com

PROFESSIONAL SUMMARY

Senior Technical Engineer with 2+ years of experience in Additive Manufacturing (DLMS, SLA, FDM, DLP, FMM) and 3D Scanning. Skilled in CAD design, R&D prototyping, filament extrusion, and composite material development. Installed and serviced 30+ AM machines nationwide, providing customer training, troubleshooting, and support. Proven trainer and mentor, having conducted seminars, workshops, and hands-on training for industry professionals, students, and professors.

CORE SKILLS

- **AM Technologies:** DLMS, SLA, FDM, DLP, FMM
- **CAD & Design:** SolidWorks, CATIA V5, AutoCAD
- **3D Scanning:** Reverse engineering, inspection
- **Materials:** PLA, ABS, TPU, CoCrW, composites (graphene, carbon, glass, wood)
- **Software:** Cura, Orca Slicer, Mykca Dental, Chitubox
- **Strengths:** DfAM, Customer Support & Troubleshooting, Training & Knowledge Transfer, R&D prototyping

PROFESSIONAL EXPERIENCE

Senior Technical Engineer – Additive Manufacturing & Design

RP3D PRODUCTS LLP | Chennai | 2023 – Present

- Designed and developed R&D and industrial prototypes for students, researchers, and clients.
- Operated DLMS, SLA, FDM, DLP & FMM systems, plus 3D scanning for reverse engineering.
- Extruded composite filaments (graphene, carbon fiber, glass fiber, wood powder).
- Conducted 20+ training workshops and seminars on AM & CAD tools for industry professionals, students, and professors.
- Delivered end-to-end solutions: 3D scanning → CAD → filament → slicing → printing → finishing → QA.
- Installed 30+ AM machines (FDM, FMM, SLA, DLMS) across India, including setup, calibration, and customer handover.
- Troubleshot and serviced machines on-site, resolving customer queries and ensuring high uptime.
- Mentored interns & supported clients with custom AM solutions.

EDUCATION

- MBA – Marketing management – Madras University (2025) Part time, pursuing first year
- B.E. Aeronautical Engineering – St. Peter's College of Engg. & Tech. (2023) | CGPA: 8.74
- Govt. Higher Secondary School, Nangur | 12th: 80% (2019), 10th: 85% (2017)

CERTIFICATIONS

Additive Manufacturing Bootcamp (Skill Lync) | 3D Printing Business Workshop | Industry 4.0 Course (98%) |
Battery Thermal Management Training

PROJECTS & ACHIEVEMENTS

- Best Outgoing Student of the Department (2019-23)
- Best Project Award: Autonomous Surveillance Drone (2023)
- Developed dental implants with CoCrW using DLMS (Venea V1)
- Created conductive graphen-based filament for electronics
- Optimized PLA + filler extrusion, improving tensile strength by 12%
- 2nd Prize – Water Rocketry, MESCIION 2022
- 11th Board exam school first.
