

Jigar Mistry

I'm an **autodidact** and mechanical enthusiast. My expertise in the design, with a fusion of advanced technology such as reverse engineering, and rapid prototyping, New product development etc.

229 ,
Ashirwad nagar near Gorwa ITI,
Vadodara - 390016.

EXPERIENCE

Vexma Technology, Vadodara — (Design Engineer)

Nov 2022 - May 2024 ~ 1 yr 5 mos

At Vexma Technology, my primary responsibilities manage **reverse engineering** of products (generating CAD files from scan data and modification), **new product development (plastic parts, sheet metal work**, laser cutting drawing), large assembly, CAD file modification, and 3D printing (SLA, FDM), 2D Drafting, **GD & T(Basic)** , **Rapid prototyping**. Project SOW to the deadline is responsibility is under my side.

ARK Technology, Vadodara - (Junior design engineer)

Jun 2022 - Nov 2022 ~ 6 mos

My priority at ARK Technology was **3D scanning** of products for **reverse engineering**, both within time constraints and on-site. Additionally, I managed **3D printing** operations of FDM and DLP machines.

RunR Mobility, Vadodara —(Internship)

Oct 2020 - dec 2020 ~ 3 mos

During my internship at RunR Mobility, I was part of the R&D team, focusing on **reverse engineering** of two-wheeler parts.

TECHNICAL SKILLS

Core Expertise — CAD , Reverse engineering, NPD, GD & T
(Plastic , sheet metal , 3D printing), Animation

Software Used — Siemens NX CAD, Geomagic design X ,
Materialize Magics , Cura, Autocad, Blender
Ms Office tool.

Please prefer a portfolio for details of projects.

“Link : [Portfolio link](#)” _____

COMPETENCIES

Project management
New Product Development
Reverse Engineer
Client communication
Adaptation of technology
Documentation
Philosophical mind
Emotional Intelligence
Passion for Mechanical

EXTRA EXPERIENCE

Topology optimization

2D to 3D conversion

3D Scanning & optimization

Large assembly

DFM , DFAM, GD & T, DFA

Implicit modeling

Convergent modeling

Lattice structure

Global shaping

Product & process animation &
rendering using blender software

3D printing (SLA, FDM , DLP)

Rapid prototyping

STL file modification

EDUCATION

Government Engineering College, Godhra

(BE – Mechanical Engineering) JULY 2019 - JULY 2022

Grade: First Class

Shri KJ Polytechnic, Bharuch

(Diploma – Mechanical Engineering) JUN 2016 - JUN 2019

Grade: First Class

PROJECTS : [Portfolio link](#)

Reverse engineering :

- Plastic part (complex & advanced)
- Metal parts (Sheet metal)
- Casting Body

New Product Design :

- Inspection device
- Medical device
- Plastic body (encloser)
- Sheet metal parts

Product animation

- Product and process animation

2D to 3D conversion

- Complex bottles and Exhibition models

Interest to work in field

- Research and development
- Turbine and compressor design
- Gear Box design
- CAM & CFD
- Die Mold design & progressive Die

STRENGTHS

Strong Work Ethics

Honest & Hardworking

Quick Learner

Excellent Listener

Able to adapt quickly to challenging situations

philosophical mind

LANGUAGES

Hindi - Fluent

Gujrati - Native

English -
Conversational(Verbal/writing) &
fluent in reading

HOBBIES

Philosophy

Sports

Travel

Teaching

Yoga & meditation

ABOUT ME

To work for an organization that provided me the opportunity to improve my skills and knowledge to grow with the organization's objective. I assure you about my
