Seeking a position to utilize skills and education in the Engineering field that offers professional growth and to come out as a successful Mechanical Engineer

SUMMARY

- A qualified and multi-talented Engineering Scholar with profound knowledge of machines and tools, including their designs, uses, repair and maintenance
- Pursued **Master of Science in Sustainable Engineering** from **University of Borås, Sweden**
- Successfully completed assignments for **Bharat Heavy Electricals Limited (BHEL)** for **cost reduction** and **LOSOTECH AB, Sweden** for **efficiency enhancement**
- Key Strengths includes: Creativity Design Mechanical Device Projects, Develop Design Calculations, Develop Project Scope and Timeline, Drafting Standards and Geometric, Dimension & Tolerance (GD&T)
- Profound understanding of fundamentals of mechanical engineering and its applications
- Proficient in **2D and 3D modeling tools** and **possess expertise in MATLAB**
- Acquired complete knowledge of established mechanical engineering principles, methods/ techniques and latest development in the mechanical engineering field
- Possess demonstrated excellent communication, organizational and time management skills

AREAS OF EXPERTISE

- ~ 2D and 3D modeling
- ~ Mechanical Drawings
- ~ Solid Works
- ~ Energy Analysis
- ~ Installation & Commissioning
- ~ Programming Tools
- ~ Design & Analysis
- ~ Studying Project Datasheets & Drawings
- ~ Quality & Safety Management
- ~ Planning and Project Management
- ~ Manufacturing Drawings
- ~ Cross Functional Coordination

LANGUAGE SKILLS

- Full professional working proficiency in English and Tamil
- Elementary proficiency in German, Swedish and French

SOFTWARE SKILLS

- ✓ 2D Tools: Auto CAD
- ✓ 3D Tools: PRO-E, NX-CAD, NASTRAN
- ✓ MS Office: Word, Excel, PowerPoint
- ✓ Programming Tools: MATLAB
- ✓ Aspen plus

EDUCATION

- **Master of Science in Sustainable Engineering** from University of Borås, Sweden, 2014 - 2016
- **Bachelor's in Mechanical Engineering** from Rajalakshmi Engineering College, Anna University, 2008 - 2012

CERTIFICATIONS

- B1 level in the German language
- Certification in CADD

THESIS

- Design Of Jig for Impeller Hub Assembly for BHEL (India)
- Life Cycle Assessment (LCA) of CO₂ emissions of wooden and recycled plastic pallets for LOSOTECH (Sweden)
- Energy Analysis on heat exchanger network using Pinch Technology (Sweden)

WORK EXPERIENCE

Organization	Premier Machine Tools.
Designation	Service Engineer
Responsibilities	• Support product engineer to improve product performance and new product development. • Develop tools and standards to improve work processes. • Design experiment, perform bench work and develop solutions to solve customer problems or to meet technical targets on prioritized projects. • Works with new and established customers to identify technical specifications. • Develop, review, and improve Operating Principles. • Assist Sales Team with plant surveys of prospective customers
Experience	August 2012 - August 2013
Organization	Zeemrah Energy Pvt Ltd.
Designation	Business Development Executive
Responsibilities	• Facilitating teams and supporting workshops / meetings across multiple phases of the project delivery lifecycle. • Working within project teams to support clients deliver their project objectives. • Developing trusted relationships with clients, target clients and internal experts as part of project delivery • Helping to develop compelling business cases and responses to new business opportunities and requests for proposals within proposal response teams • Working Alongside Clients and Building Trusted Relationships
Experience	April 2018 - February 2019
Organization	Rutam Enviro Systems Pvt Ltd.
Designation	Sales Executive/Project Co-Ordinator
Responsibilities	• Developed and implemented new sales and marketing strategies. • Introduced clients to new offerings and products. • Prepared product sale contracts for presentation to clients for approval. • Kept current in energy industry sales trends. • Develop the complete Work Break Down structure and associated construction estimate, identifying all Direct and Indirect cost items. • Develop cost estimates for new opportunities and contract revisions. • Utilize engineering packages (drawings, customer specifications, etc.) to prepare request for quotations for purchasing of components, supplier evaluations and cost analysis. • Working with my Sales team, lead the contract formation process for Boiler Performance Solutions projects across the segment with the intent of developing winning strategies to leverage successful deal closures while ensuring compliance with established guidelines process. • Support the team before/during commercial and technical meetings/negotiations with customers
Experience	April 2019 - January 2021

Organization	N2S Technologies Pvt Ltd.
Designation	International sales Engineer
Responsibilities	• Searching for new clients who could benefit from our products in a designated country • Managing technical sales relationship with international clients and partners • Acting as an escalation point for global technical issues • Gathering feedback from partners and partner customers on how we can improve our product and processes • Utilize all the technical data to prepare the quotation for the client. • Managing and interpreting customer requirements • Staying update with new product release features in order to properly respond to partner inquiries • Creating detailed reports and analysis of international partners and customers.
Experience	January 2021 - June2021
Organization	Kinetic Green Energy and Power Solutions Pvt Ltd
Designation	Area Sales Manager-TN
Responsibilities	• Managing, training, and providing overall guidance to the Dealers of an assigned territory. • Setting reasonable sales targets to be achieved by the Dealers. Monitoring the performance of the Dealers and motivating members to meet or exceed sales targets. • Collecting customer feedback and providing updates to senior management. • Traveling to potential and existing customers within an assigned sales area to present company offerings and build brand awareness. • Utilizing outbound telephone calls, email communications, and face-to-face meetings with clients to close sales. • Developing and sustaining long-term relationships with Dealers. • Implementing a sales management process to assist the Dealers in identifying and prioritizing key customers and prospects.
Experience	August2021 - Till Date
