Core Competencies

Soft Skills

Profile Summary

- **Directing the end-to-end sales of products, solutions & services** for product design & development, manufacturing & industrial automation
- **Turnaround Specialist and Change Manager with a proven record of stamping success** in restructuring loss-making organization and delivering significant profits
- Decisive, strategic and performance-driven professional with **merit of winning turn-key/ executing concept-to-commissioning projects**
- **Executed the strategy & plans for organization's business operations;** drove operations that led to an increase in turnover & profitability
- **Gained brief exposure to numerous verticals such as Mechanical, Automotive, Heavy Engineering, Agricultural, Marine, Rail, Defence, Govt. Tenders, Engineering Services and several others**
- **Wealth of managing multiple geographies such as US, Canada, Europe, UK, Scandinavia, Dubai and several others**
- **Highly skilled in procuring projects related to Metal Additive Manufacturing, Polymer 3D-printing, RPT/ Traditional-machining, Product Design, Reverse Engineering(Scanning), CFD/ CAE, CAD/CAM, Design-automation.**
- **Known for augmenting growth, generating new business and devising & executing business plans** by leveraging comprehensive understanding of the dynamics of the industry
- **P&L Driver & Revenue Accelerator:** Drove the operations for the organization, employed a pragmatic approach and catapulted the profits
- **Established multi-site operations from grounds-up, built capabilities** and set-up governance structure, project delivery strategy, operations readiness and enhanced internal controls in the organization by instituting Six Sigma
- **Added value to the efforts of the organization and drove organizational objectives by successfully managing business & proposal development, sales & marketing, techno-commercial operations,** project functions, channel sales management, pre-sales activities, proposals & negotiations, key accounts management and several others
- **An effective communicator with strong relationship management skills** with the capability to relate to people at any level of business & management across the globe; possess excellent analytical and negotiation skills

Strengths

- Recognized as decisive/performance-driven professional with merit of winning **turn-key projects.**
- **"Go-Getter"** approach/ attitude.
- Flexible to work in **shifts (Any)/** Adaptable to re-locate **anywhere** across India/ Abroad.
- Experience in handling **(CRM of)** strategic OEM customers.
- Know-how of different **Industry Verticals-segments/ Domains/ Engineering Services Scope.**
- Awareness of **Best Practices, Domestic & International Stds.**
- Capability of developing business for **new ventures/ start-up** engineering services firms.
- Expertise in preparing **Technical Presentations/ Case-studies, Marketing Collaterals/ Flyers-Brochures.**

* Currently/ at the moment, in look-out/ open for new opportunity (*full-time payroll model*) for **Front-End/Client-facing**(field- sales)/ **Business Development-Marketing** role/ position of **Engineering-Services** < "Design / Simulation/ Prototyping/Tooling/ Manufacturing/ Component-sales" > for diff. verticals/ segments.

Organization Experience:

1st Jul'19 to Till-date as a *Consultant*

- Business Development of "**Additive**" - Manufacturing projects across **multiple-domains** related to **Conformal-cooling, 3D-printing (Metal/ Polymer), Vacuum-casting /FRP, Carbon-Fibre/ Composites, Conventional Machining.**

Supported for marketing (collaterals, tech. presentations)/ sales of tasks related to development of:

- "Metal" 3D-printed "Conformal-cooling" channels/ passages for core & cavity die/ mould inserts/ punches to reduce issues/ pain-areas such as cycle-time, cooling-line issue, warpage, shrinkage, porosity, hot-spot, complex-geometry/ profile of insert/ punch thereby increasing productivity (production-rate) and improving the life of the tool/mould.
- "**Metal**" 3D-printed **complex end-use application prototype-components** for trials-in shorter lead-time/much lesser cycle-time to market with superior/ better material/mechanical properties; batch/low-volume (low-mass).
- "Polymer" 3D-printed fully-functional prototyping-parts (FDM, SLA/SLS, BJ/ MJF) for aesthetics.
- Procure projects from the market for feasibility assessment/ study and then co-ord. for proposals/ quotations with Service-Bureaus and if reqd. end-customers; "Go-&-getter" resp. RFQ/ RFP (as per req./ need) to particular Engg. Services B.U
- Sales of RPT/ Subtractive-manufacturing services: Low-mass production, VMC/CNC-machining, Wire-cut EDM, Sheet-Metal fabrication (Laser-cut, Pipe-bending), Tube-welding, Jig-Fixtures, blue & white-light scanning, CMM.
- Support S.B to co-ord. for post-processing needs of customers such as shot-blasting/peening, PVD-coating, Anodizing/ Chromatizing, Polishing-Buffing-Mirror finish, Ageing/ age-hardening, Grinding, Nitriding/ Carburizing, and other finishing activities (based on req.)
- Support to prototyping (research-projects) needs/ req's (Educational)

1st Jan'16 till 1st Jun'19 with **Atlantis Lab Pvt. Ltd** as **Manager- Business Development** (PAN-India)

- Acting as a SPOC for all strategic accounts including renowned MNC's, OE Manufacturers and Suppliers
- Preparing detailed case-studies of executed projects; developing dedicated partners for niche requirements
- Gathering on-site manpower requirements; leading the off-site project execution;
- Steering the formulation and implementation of corporate strategies for achievement of targets
- Analyzing competition through market information to finalize the marketing strategy
- Gathering and utilizing client feedback & personal network to develop marketing intelligence for generating leads
- Administering business operations for the profit centre with a view to realize pre-planning sales and revenue targets; formulating profit centre budget for operational / business development activities
- Rendering sustained services for high ROI, increasing retention level by achieving quality norms and resolving their issues to attain high customer satisfaction
- Ensuring the successful accomplishment of preset business targets in face of growing competition; identifying the prospective clients, generating business from new accounts and developing them to achieve profitability

Significant Highlights: Successfully achieved the annual sales target of INR 90 Lakhs in 2017

Procured off site projects such as:

- CFD Simulation (Velocity & Pressure Drop of Water Jacket)- CFX for KOEL (Engines) Dept.
- CAE (Torque Analysis) of 2 wheeler actuator for Minda (Ansys)
- NVH- Noise simulation for Rail Bogie w.r.t fan noise and other elements (Sysnoise) for CIL
- MESHING (B-Pillar) for Grupo Antolin (Hyper Mesh)
- Brick-element Hexahedral mesh for Plastic automotive part for BROSE (ANSA)
- 3D CAD modeling for Canadian customer (Chassis Manufacturer), SolidWorks (Canadian Chassis supplier)

*Developed several key accounts such as **Kirloskar Oil Engines, Cummins Turbo, Maxion (Kalyani) Wheels, Gecia, Tata Motors, Lombardini, Emerson, Autoliv, Altran, Cooper, Minda** and several others.*

1st Nov'13 to 1st Dec'15

- Freelance-support (Services, Products, Training's, Staffing, Other)

1st Jul'12-1st Oct'13 with **Harita Techserve Ltd** as **Manager- Business Development** (Domestic)

- Promoted sales of DASSAULT-suite which includes product-engineering-tools & factory simulation products.

DELMIA certification (enclosed)

1st Jun'10-1st Jun'12 with **Hema Engineering Industries Ltd** as **Asst. Manager- Business Development** (NA/EU/ME)

Product Design & Engineering Projects (International)

- FE Analysis of Marine Seat by X-axis impact test and modification suggestion with report in existing design as per the results for Industrial & Marine Seating Company
- Concept design and detailed design and development for a Seat Belt Buckle Manufacturer
- FE Modeling of Exhaust manifold (Exterior &Interior Surfaces)for a Cast Exhaust Manifold Manufacturer
- FMVSS 207 & 210 Static/208 & 213 Dynamic (testing) simulations run for forward and rear facing with report generation for a Crash Test Facility Provider

Domestic Projects (Process/Tooling Engineering- BIW Fixture Design & Manufacturing)

- Design, Fabrication and Supply of Door Hinge Fitment (pneumatic) & Hood centering jigsfor GM
- Design, manufacture & supply low volume BIW fixtures for Rear panel assembly and Front screen assemblyfor STADCO
- Design & Detailing of Spot Welding Fixture (Pelican)/ Inspection Fixtures (Xenon)for Tata Motors Ltd.
- Design & manufacture of the individual part welding fixture & sub-assembly welding fixture for the seat frame for Thai Summit Neel Auto Pvt. Ltd.
- Design & manufacture 8 tackles to lift the cabin for different stages in the production cycles for Volvo Eicher Commercial Vehicles
- Design and detailing of M-Star BWF – for Mahindra (Dies & Tools Division-Nasik Plant)

1st May’07-1st May’10 with Kalyani Infotech Solutions Ltd as Sr. Executive- Marketing (MH state)

- Sales of corporate training services (tailor-made/ customized)

1st Apr’05-1st Apr’07 with Autoline Industries Ltd., as Executive for Software-Product-Sales (SME-Pune)

- PTC re-seller

IT Skills

- Hoovers, Salesforce, OneSource, LinkedIn
- Word, Excel, Powerpoint.
- Zoom, MS-teams, WEbex, GotoMeeting, Other.

Trainings Attended

- SAP Sales & Distribution (SD) Modular Training Course
- ISO certificate course

Academic Details

- B.E.in Mechanical Engineering from AISSMS, Pune in 2005
- Short Diploma in CAD/CAM from IGTR, Pune in 2004

Personal Details

Languages Known: English, Hindi, Marathi

Address: Flat #1, Yashodeep "A" Building, Rambaug Colony, Sadashiv Peth, Pune- 411030

Annexure

Individually discussed and procured projects such as:-

- Data Migration, GD&T for different configurations of pump sub-assemblies; FE Analysis of Gearbox for Pump OEM Manufacturer
- Exterior Reflector Lens Injection Mold Design for Automotive Tier 2 Client- Warren, MI
- 3D Design & 2D detailing of Sheet Metal Tool Design for Bihler machines and progressive dies for console hinges for Automotive Tier-2 Sheet Metal Tooling Supplier- Milwaukee, WI
- Concept Design of Plastic Injection/Blow, SMC (Compression) production & prototype molds for Auto Tier 2 Plastic Tooling Supplier, Rochester Hills, MI
- Holes Data Transfer from 2d to 3d of Cooling Holes, Ejector Pin Holes, Lifting Holes Auto OEM Environment for Auto Tier 2 Aluminium HPDC Die-casting supplier- Ontario, Canada
- 3D CAD Modeling and 2D Detailing work of fixtures for Automotive Tier-2 Fixtures supplier- Tholey, Germany
- Structural analysis of load trolley and hanger assembly for Automotive Material Handling Supplier- Mumbai, India
- Moldflow (Detailed Fill + Pack and Overmolding Fill + Overmoldin pack Analysis) simulation of 2K Molding – door handle – for Automotive Tier 2 Plastics supplier (St. Charles, IL)
- Burst Test, Dynamic Durability, Fatigue Test for Auto Tier 2 CV Air-Spring Supplier (Hamburg, Germany)
- Failure Analysis of Oil Sump - Auto Tier-1 Composite Supplier (Pune, MH).
